ACEF Enterprises / ChrisNGrace Inc. California, USA (Remote) Mar 2024 – Nov 2025

Healthcare Brand Designer & Revenue Cycle Specialist

Dual role — brand & marketing design for a US healthcare billing firm, plus clinical revenue-cycle operations

- Designed a complete healthcare marketing suite — trifold brochures, roll-up banners, calling-card systems, and social assets — for physician office managers and hospital administrators who judge vendor credibility visually before any conversation.
- Applied compliance-aware visual language to translate complex revenue-cycle services into trust-first brand communication for a medically sophisticated audience.
- Ran revenue-cycle operations across physician clinics and allied-health providers (Medicare, Office Ally, CollaborateMD) — direct exposure to payer dynamics and denial patterns that now inform every healthcare design decision.

Lucia's Kitchen & Pomodoro Pizza Laguna, Philippines 2021 – 2022

Brand Designer — Hospitality & F&B

- Built full visual identities from scratch — menus, packaging, signage, and campaigns — and grew social engagement up to 80%, tied to measurable in-store traffic growth.
